PROFIL

Experienced Software Engineer with a strong background in full-stack development. Skilled in analyzing and resolving technical issues in payment systems, including online transactions, ATM, POS, and TPE platforms. Collaborative team player focused on implementing payment standards and driving continuous system improvements.

EXPERIENCES

Software Engineer

September 2025 – Present

HPS Morocco – Casablanca, Morocco

- Provided technical support to customers, reproducing issues locally and delivering effective Powercard solutions.
- Troubleshoot and resolve problems related to online transactions, batch processing, and bugs in ATM, POS, and TPE platforms.
- Collaborate with the enhancement team to implement features and updates in line with Visa and Mastercard specifications.
- Develop and maintain software using Java, C, PL/SQL, and Angular.
- Ensure high-quality support and timely resolution of client issues, improving overall system reliability.

Intern – Software Engineer (Final Year Project)

January 2025 – July 2025

HPS SWITCH (SWAM) – Casablanca, Morocco

- Analyzed requirements and designed architecture for real-time Unix server monitoring and banking log archiving.
- Created UI/UX prototypes and dashboards with Figma for user-friendly scheduling, reporting, and alerts.
- Developed the system using Java 17, Spring Boot, MySQL, React 19, Redux Toolkit, Tailwind, PrimeReact, Docker, Azure Blob, iText7, integrating real-time monitoring, anomaly detection, and alerting.
- Generated customizable reports and automated log archiving and notifications to improve efficiency and reliability.

Intern – Full-Stack Developer(End of Year Project)

July – September 2024

BlueBooks Solutions (WonderWay) – Technopark, Casablanca, Morocco

- Contributed to a document management project, developing back-end and front-end features with Laravel 10, Tailwind CSS, and DaisyUI to improve workflows and user experience.
- Followed application design and managed tasks using Jira, collaborating with the team via Git and applying Figma designs for UI/UX.

Exploratory Internship – IT & Network

July – August 2023

Agora Technology – Casablanca, Morocco

- Gained hands-on experience with Microsoft Server 2019 (AD, DHCP, DNS) and basic network security using Group Policies.
- Gained hands-on experience in server monitoring, troubleshooting, and administration, exploring IT operations and software development.

PROJECTS

Mobile Application for Service Discovery & Service Delivery

November 2025 – Present

- Designed UI/UX interfaces using Figma and implemented them in React Native for a responsive mobile experience.
- Developed backend services with Spring Boot, including API endpoints and database integration.
- Integrated an AI chatbot to assist users with interactions and support.
- Implemented maps and location features for real-time functionality.
- Managed tasks and collaborated with the team using Git and agile methodology.

Technologies: React Native, Spring Boot, AI chatbot, Maps API, Figma, Git.

E-Commerce Website

April – June 2024

- Created an e-commerce website using the MERN stack, providing a smooth and dynamic shopping experience.
- Managed product and user data in MongoDB, with Express and Node.js for the backend API.
- Developed the user interface in React, incorporating navigation, search, and shopping cart features.

Technologies: MongoDB, Express, React, Node.js (MERN Stack)

Air Traffic Control Simulation

January – March 2023

- Team development of an airplane ticket reservation management application using Laravel (PHP), improving user interaction and system usability.
- Used MySQL to manage data related to flights, customers, and reservations, enabling efficient search and booking operations.

Technologies: Laravel, PHP, HTML, CSS, JavaScript.

TECHNICAL SKILLS

- **Languages:** PHP, Java, C
- **Backend:** Laravel, Spring Boot, Node.js, Express
- **Frontend:** React, Angular, HTML, CSS, JavaScript
- **Databases:** MySQL, PostgreSQL, Oracle, MongoDB
- **DevOps & Cloud:** Docker, Jenkins, Git, Linux
- **Tools:** VS Code, Eclipse, Android Studio

Soft Skills: Problem-Solving, Teamwork, Project Management

LANGUAGES

Arabic (native), French (native), English (fluent), German (A2)
